

Sampling report; Analysis of marine biotoxins in shellfish
Sýnatökuseðill vegna prófana á þörungaeitri skelfisk

| | |
|--|--|
| Identification of sample: Auðkenni sýnis: | |
| Sender of sample: Sendandi sýnis | Matvælastofnun MAST Austurvegi 64, 800 Selfoss S:5304800, skeldyr@mast.is |
| Type of sample: Tegund sýnis | Latneskt heiti Enskt heiti |
| Producer / name of sampling person: Framleiðandi /kvittun þess sem tók sýnið | |
| Harvesting / sampling date (date/time): Veiði / Sýnatökudagur (dags/kl) | |
| Area of harvesting / location: Landfræðilegt nafn svæðis/ hnit eða lýsing | |
| Arrival time at the laboratory: Komutími á rannsóknastofu (dags/kl) | |

Indicate parameters that should be analyzed
Merkið við þá þætti sem skal taka til greiningar

| Para meter / rannsóknarpáttur | Methods |
|-------------------------------|---------------|
| DSP – Lipophilic toxin* | EU regulation |
| PSP (saxitoxins) | EU regulation |

*The DSP analyse include okadic acid, dinophysotoxins, YTX (yessotoxin), AZA (azaspiracids), PTX (pectenotoxin) and screening for ASP (domoic acid).

To the laboratory: Please make remarks if the temperature is too high. Please send the results along with this sampling report to Matvælastofnun telefax number. +3545304801 or by email to skeldyr@mast.is
